

**The Language of Anatomy**

1. Complete the following statements by choosing an anatomical term from the key choices. Enter the appropriate answers in the answer blanks.

**Key Choices**

- |             |             |              |               |
|-------------|-------------|--------------|---------------|
| A. Anterior | D. Inferior | G. Posterior | J. Superior   |
| B. Distal   | E. Lateral  | H. Proximal  | K. Transverse |
| C. Frontal  | F. Medial   | I. Sagittal  |               |

1. In the anatomical position, the nose and belly button are on the [1] body surface, the calves and shoulder blades are on the [2] body surface, and the soles of the feet are the most [3] part of the body. The nipples are [4] to the shoulders and [5] to the armpits. The heart is [6] to the spine and [7] to the lungs. The knee is [8] to the toes but [9] to the thigh. In humans, the ventral surface can also be called the [10] surface; however, in four-legged animals, the ventral surface is the [11] surface.
